FOREIGN NEWS.

Oſen, May 11. On the 9th of this Month, the Coronation of the Empreſs was performed with great Solemnity, in the Cathedral Church of this City. Yeſterday her Imperial Majeſty received, on that Occaſion, the Compliments of the Foreign Miniſters, and of the Lords and Ladies of the Court; and Orders have been ſent to all the Ruſſian Miniſters who reſide in Foreign Courts, to give Feaſts there on this Subject. The Vice-Chancellor, Baron Oſterman, has been promoted by the Empreſs to the Dignity of Count, and her Imperial Majeſty has made him a Preſent of ſome Eſtates in Livonia, of a very conſiderable Value.

Vienna, May 24. An Expreſs is arrived from Rome with News from the Conclave, that ſome of the Foreign Cardinals have declared, that if within a certain Time, which they have limited, the Sacred College agree not on the Election of a Pope, they will quit the Conclave, and return home. Some Advices from Moſco import, that they waited only for the return of the Courier which had been ſent hither, to give the laſt Orders, for the March of the Ruſſian Troops, that are to enter into the Service of the Emperor. The Expreſs which the Court received laſt from Count Kinski, his Imperial Majeſty's Embaſſador at the Court of France, confirms, that a new Scheme for a general Pacification was ſet on Foot there, and that the Allies of Seville had declared, that if the ſaid new Scheme be not to the good Liking of the Parties concerned, the Treaty of Seville ſhall be put in Execution without Loſs of Time; and that Force ſhall be made uſe of, in caſe of any Oppoſition, with reſpect to the Introduction of the Spaniſh Troops into Italy. Meanwhile we continue to put ourſelves into a good State of Defenſe in that Country: All the Troops, which are moving that Way, have Orders to haſten their March, and the third Column of the Imperialiſts who are to be ſent thither, will ſet forward in a very few Days. An Expreſs from our Miniſters in France has brought the *Ultimatum*, or laſt Propoſals of the Allies of Seville, who will go upon their Enterprize in Italy if the Emperor rejects theſe Offers, as he has done all the former.

Berlin, May 29. This Evening, about 9, the new Tower of St. Peter's Church here was fired by Lightning, and the Flames communicating to the Church ſet Fire to the Houſes adjoining; and thus the Dog-Market, Green-ſtreet, Broad-ſtreet, and all the Houſes on one Side of the Canal, are now in Flames, at the Departure of the Poſt.——The new born Prince was baptized, the 24th, by the Name of Auguſtus Ferdinand; the King of Poland and the Duke of Brunſwick-Beveren ſtanding Godfathers. This Day the King and Prince-Royal of Pruſſia ſet out for the Saxon Camp at Muhlbergh, and are expected back the 15th or 16th of June.

Santa Cruz, in South Barbary, April 24. According to Advices from Sallee, Mulei Abdallah's Army was not yet broke up, for want of Proviſions; but their March is now directed firſt to Morocco, thence to Suz, and ſo hither, to receive Homage. At Tarudant, the Capital of this Province, is ſtarted up a Man who gives himſelf out to be ſome eminent Perſonage: His Retinue conſiſts at preſent only of 70 Followers on Horſeback, and a few Foot; but his Reign is like to be very ſhort, the Mountaineers having intirely ſurrounded him.

Extract of a Letter *from* Gibraltar, *dated* April 6.

We have not as yet any Benefit from our preſent Peace with Spain, they not allowing us the leaſt Communication with them, nor any Supplies to be brought us, either by Sea or Land; nor will they admit any Britiſh Ships from hence, except ſuch as call at Tetuan for a Bill of Health from the Friers. They continue in their Huts very near us. We are not ſuffered to make any Uſe of the Mills, or Devil's Tower. The Mouth of the Mine is walled up, and the Rock blown away underneath it, ſo that there is no getting up to it. It runs ninety to an hundred Yards in a hard ſolid Rock towards Willis's Battery, and about five Foot broad, except at the Mouth, which was wide, but could never have been brought to be of Service to them. They keep up Teſte; and till they are removed from thence, the beſt Part of the Bay will be rendered unſerviceable whenever we have a Miſunderſtanding with Spain. At San Roque they continue to build, and Algezira is become a very large Town. Barbary continues in great Diſorder to the Southward. Mr Black, having been carried by Admiral Cavendiſh to Algiers, was received there as Conſul, and all Matters were amicably adjuſted. Some Difference aroſe about a Genoeſe Ship, which had an Engliſh Paſs, but foreign-built and manned, on which Account ſhe had been carried in as Prize. The Dey, at releaſing her, ſaid, he was ſenſible that many had our Paſſes, who were not intitled to them: and added, that tho' he releaſed this Ship, it ſhould be no Precedent for the future.

Hague, June 6. The Iron Works in Sweden received very great Damage from the Floods; and the Fruits of the Earth have been deſtroyed in ſeveral Places, between this and Elſeneur, by the violent Storms of Rain, Hail, Thunder, and Lightning.

Waalwyk, May 29. Yeſterday, about 6 in the Evening, we had here moſt frightful Thunder and Lightning, attended with ſuch a Hail Storm, that all the Corn in the Fields was wholly deſtroyed, even as if it had been mowed down, and the Trees and Fruits of the Earth were ruined; as was alſo the Graſs of the Meadows and Paſture-Grounds. The Windows of the Houſes on the S. and W. Sides of this City, and its Suburbs, as alſo of the Streets called Beſoyen and Baardwyk, are all beat in Pieces, and thoſe of the Churches ſo ſhattered, that there is not one whole Pane of Glaſs to be ſeen. Moſt of the Hail Stones were as big as Tennis Balls; many large Trees are either torn piece-meal or over-turned. All around appeared in Flames, and the People in general were in the utmoſt Terror and Confuſion; the Alarum Bells were rung, and every one thought no leſs than that the World was at its Period, or at leaſt that this Diſtrict would be totally deſtroyed. Abundance of Horſes and Cattle were killed, ſo that the Inhabitants are reduced to a deplorable Condition. This terrible Storm laſted about an Hour, without Intermiſſion, and extended particularly over Loon, Opſand, Waalwyk, Ganſooneen, Drongelen, and Eeeten, about the Breadth of 2 Leagues and half: But we cannot yet be more particular. Laſt Friday a Man was ſtruck dead by Lightning, at Tilburg.

Paris, June 7. Letters from Rome, of the 17th *ult.* import, that the Chief Nobility of that City, ſeeing the Affairs of the Conclave no forwarder as to the Election of a Pope, than they were the very firſt Day, were daily quitting the Town to take the Benefit of the Summer Seaſon at their Country Seats.

From Madrid the 23d paſt we hear, that the Court ſtill continued at Soto de Roma; and that, on the 14th in the Morning, Marquis de Brancas, Embaſſador of France, took Poſſeſſion of the Dignity of Grandee of Spain, by putting on his Hat in the King's Preſence, having the Duke de Arcos for his Sponſer, on this Occaſion.—— A young Princeſs of Baden, about 4 Years old, Niece to the late Ducheſs of Orleans, is come hither, on Account of a Wolf, or cancerous Ulcer, which ſhe has on her Cheek; the Surgeons, Marechal, Petit and Guerin will ſuddenly perform the Operation of cutting it away.

We are impatiently waiting the Return of 2 Expreſſes ſent to the Courts of Spain and Vienna, and whoſe Anſwers, we verily believe, will decide the Grand Affair either of Peace or War; and it is aſſured, that Marquis Spinola will continue here till the Return of both thoſe Couriers. Some Advices from Spain import, that the Flotilla, which is returning from America, was arrived at Vera Cruz; and that it was believed they would return to Cadiz by the End of Auguſt next at fartheſt.

A certain Abbot, whoſe Conduct was none of the moſt regular, being lately ſhut up, by the King's Order, in one of the Seminaries of this City; a Lady, with whom he had frequently converſed, was not able (it ſeems) to ſupport his Abſence, but diſguiſed herſelf in the Habit of a Page, and ſo got Admittance into the Seminary. This was a lucky Expedient! but the pretty Page relying too much upon the Safety of it, and being never eaſy but when ſhe was with h r dear M. L'Abbe with whom ſhe had always a Collation, the Superior of the Seminary began to ſuſpect ſomething more than ordinary in thoſe frequent Viſits and Collations, and taking his Meaſures, diſcovered the whole Int igue. Madam is ſhut up; and as for her Paramour, he probably, may have Reaſon and Leiſure enough to repent.

Tueſday *Evening arrived a* Mail *from* Holland.

Hamburgh June 2. We learn from Moſco, that ſince the Coronation of the Empreſs, the Deputies of the Calmucks and other Tartars, ſituate along the Caſpian Sea, as alſo of the Coſacks, have had their Audience of Leave; that the unfortunate Family of Dolgorucky are ſent away from Moſco, under a Guard of 40 Dragoons, to Tobolskoy, the Governor of which Capital of Siberia is ordered to cauſe them to be conducted to the extreme Frontiers of Tartary, and to place them 10 Werſtes from each other, and that none of them ſhall be allowed above one Servant; and their Conſorts and Children are to be placed in different Cloiſters till farther Orders. The Biſhops, &c now at Moſco, are ordered, by her Imperial Majeſty, not to admit any Perſon into Eccleſiaſtical Offices, till they are well verſed in the Rites, &c of the Greek Church.

Copenhagen, May 30. By the Ships bound to Iceland, his Daniſh Majeſty has ſent 2 Engineers in order to make an exact Chart or Map of the whole Iſland, and to diſcover how far the ſubterraneous Fire has ſpread of late Years, and the Deſolation occaſioned thereby. And ſince the King, deſirous of providing for the Inhabitants whoſe Lands have been ruined, is about to ſend them to the new Colonies in Greenland, a Ship is getting ready, which is to take on board all ſorts of Artificers; alſo Linen, Woolen, Wood, and Iron Manufactures, and what is neceſſary for the Fiſhery, and for the Families deſigned to be tranſported; whereby it is hoped the Coaſt of Greenland will not only be peopled, but the wild Inhabitants be made tractable, and great Advantages be in time drawn from thence.

Amſterdam, June 9. It is adviſed from Florence, of the 20th paſt, that an Earthquake, which had been felt in divers Parts of that Dutchy, the 12th, had quite ruined the ſmall City of Norcia, all the Houſes whereof, except the Convents of St. Franciſco and St. Antonio, and the Palace of Juſtice, were over-turned; that 400 Perſons were already drawn from under the Ruins; and that the reſt of the Inhabitants, to the Number of 4000, were retired into the Country.

From Vienna, of the 27th, that a Courier was arrived from Florence, adviſing that the Grand Duke had again declared againſt the Introduction of Spaniſh Troops into his Dominions; and that he would aſſiſt the Emperor with Money to carry on a War, in caſe of a Rupture.

The 8000 Palatine Troops, who are to enter into the Emperor's Service, have received Orders to hold themſelves ready to march for Italy, if requiſite.

Rome, May 20. In laſt Monday's Scrutiny, Cardinal Corſini, a Florentine, had 27 Voices. He is ſupported by the French and Spaniſh Factions: But we are aſſured, that Cardinal Cienſuegos, in the Name of his Imperial Majeſty, has given him the Excluſion. Thus we ſeem as far from having a new Pontiff as at the firſt aſſembling of their Eminencies in the Conclave—— It is confidently affirmed, that the Commander Santini, who was nominated to the Grand Priory of Malta, in this City, will make Renunciation of the ſame, in Favour of Chevalier de S. George's 2d Son, on the ſtrenuous Inſtances which the Sacred College has made to this Effect, to the Grand Maſter of that Military Order.

Hague, June 6. Two Regiments are named, viz. Swartzenbourg and Crommelin, to make Part of the Quota of this State, purſuant to the Treaty of Seville.

Admiral Perez having made good his Credentials and Powers from the Emperor of Morocco, has agreed with the State, for the Redemption of the Dutch Slaves, for a Sum of about 40,000 Gilders, which are to be paid at Gibraltar, to which Place the Captives are promiſed to be brought and delivered.

Paris, June 6. There were ſeized lately at Villejuif, ſome Bales of Libels, as they are called, being written by the Biſhops of Montpellier and Senez. They were directed and packed up, as Bales of Liquor, for a Merchant at Verſailles, to whom they permitted them to come; but a Guard following the Voiture to his Houſe, took Care of the Merchant and Merchandize.

We are told from Holland, that 2 Dutch Ships are ſailed from Batavia in East india, to join 2 Engliſh East India Men, with deſign to fall upon 2 Ships carrying Poliſh Colours, bound for Oſtend; and it is further ſaid, that in caſe theſe Ships ſhould eſcape this joint Force, they will be met with, coming home, by ſome Dutch and Engliſh Cruiſers, to be ſent out for that purpoſe. Mean while, the Owners ſeem to be in no Pain about them, they having the King of Poland's Commiſſion, which they fancy will ſatisfy all Gainſayers.

Wedneſday *arrived the* Mail *from* France, *and* 3 *from* Flanders.

Hague, June 6. We have a Confirmation, that Cardinal Fleury, having propoſed an *Ultimatum* (or laſt Offers) to Count Kinski, that Miniſter has diſpatched a Courier to Vienna, whoſe Return will decide the Fate of Europe, as to Peace or War. That *Ultimatum* is ſaid to conſiſt of the ſtrongeſt Guaranty of the Emperor's *Pragmatica Sanctio*, comprehending not only his Territories in Italy, but alſo his Hereditary Countries, and herein the Succeſſors his Imperial Majeſty ſhall appoint in caſe of Default of Male Iſſue: Moreover, that the King of Spain will pay the Arrears of the Subſidies, and even continue them according to the Terms of the Treaty of Vienna, provided the Emperor will leave the Great Duke of Tuſcany and the Duke of Parma at Liberty to admit 6000 Spaniards into ther Territories. This carries a Face of Probability, and ſhews the Tendency of the Reports that have been induſtriouſly ſpread, as if Naples and Sicily had been promiſed to the Crown of Spain in lieu of Gibraltar and Port-Mahon.

The Regiments of Sthwartzemburg and Cromelin are not only ordered to be ready to embark, but Tranſports are actualiy hiring to take them on board.

A vile Scene of Iniquity is lately opened in theſe Countries. Our Court has had under Proſecution for ſome Days paſt 7 young Perſons for the deteſtable Sin of Sodomy, formerly ſcarce known in theſe Parts, but rather confined to the South Side of the Alps! Several have been ſeized on this ſcore at Leyden, Utrecht, Amſterdam, Campen, and in ſhort in almoſt all the Provinces. People talk of a Liſt of 5 or 600 of theſe unnatural Wretches; and that the Infection has ſtrangely ſpread itſelf. Undoubtedly, if any of the Perſons accuſed are found Guilty, they will receive ſuch exemplary Puniſhment, as will deter others from the Commiſſion of the like Abominations.
